# What is Mantracking?

**Mantracking is the technique used to follow a subject by reading the signs left by the subject as he moves through the environment.**

## How do you do this?

**Learn to read the trail, use all your senses, know the land & conditions, understand lost person and fleeing person behavior, know how a subject travels at night vs day**

**PUT THE PIECES TOGETHER & SOLVE THE PUZZLE**

**Mantracking is an essential skill for  
Law Enforcement, Fire Rescue,  
Military, Search & Rescue,  
K9 Handlers & Flankers**

# OUR CLASSES

**Basic Mantracking** - This one day course starts off with a classroom session covering the basics. Afterwards, it's to the field for training and instruction. Next, in a team environment, you will work actual trails with the aid of an instructor. Finally, as a team you will work to completion an extended trail to complete your certification.

**Advanced Mantracking** - This one day course starts in the classroom continuing and building on your basic mantracking knowledge. This is followed by field instruction covering some of the finer points and again building on your knowledge. Next we work more difficult trails, assisted by an instructor. Finally, as a team you will work to completion a much longer and more difficult trail for certification.

**Basic & Advanced Mantracking** - A two day course, combining basic and advanced, taking you through to advanced certification.

All our classes are offered with an optional tactical component covering tactical movement, cover/concealment, light/noise discipline

**For information regarding  
holding a course at your location  
or to check our schedule for Indiana
